NAVIGATION BY THE STARS

Astronomical navigation, commonly referred to as navigation by the stars, is a time-honored practice employed by mariners and explorers to ascertain their location at sea through the observation of celestial bodies. Prior to the advent of contemporary satellite navigation systems like GPS, sailors depended on the positions of stars, the sun, and occasionally the moon to navigate and chart their courses across expansive oceanic waters.

A primary technique in stellar navigation involved the sextant, an instrument designed to measure the angle between a celestial body and the horizon. By accurately gauging this angle at a specific time and cross-referencing it with nautical tables that outline the positions of stars throughout the year, navigators could determine their latitude and, through more sophisticated methods, their longitude.

Celestial bodies are integral to this navigational approach. For instance, Polaris serves as a vital reference for navigators in the northern hemisphere due to its proximity to the North Pole, resulting in minimal positional variation in the

sky. Conversely, navigators in the southern hemisphere frequently utilize the Southern Cross for guidance.

Mastering navigation by the stars necessitated a comprehensive understanding of constellations and celestial dynamics. Navigators were required to swiftly identify prominent constellations and stars that were visible at various times of the year and across different latitudes. This proficiency typically demanded extensive years of dedicated practice and careful observation.

In contemporary times, while advanced technology has largely replaced traditional navigation methods, the skill of star navigation continues to hold significance and respect. It is still imparted in certain navigation academies and remains relevant during maritime journeys where modern systems may fail. Furthermore, this technique serves as a reminder of the remarkable achievements of ancient seafarers who traversed the oceans guided solely by the stars, exemplifying human creativity and resilience in overcoming the challenges posed by nature.

FOOT & ANKLE RELAXATION

A HEAVENLY EXPERIENCE IN THE ZÀGARA BEAUTY SPA

► THE ZÀGARA BEAUTY SPA, DECK 7

Treat your feet to a 55 minute massage, using muscle melting aromatherapy oils, and a soothing, cooling refreshing gel. A heavenly experience in the Zàgara Beauty Spa.

Today Only for \$99. Call the Zàgara Spa on 8824 or visit us to book your appointment.

HUBERT: FASHION SHOW

THE BOUTIQUE ABOARD SILVERSEA

► AT 15:45, PANORAMA LOUNGE, DECK 8

Join Isabel, Gem and Jewellery Consultant from Hubert Jewelry for this unique Fashion Show where your fellow guests will be showcasing Hubert's exquisite collections.

FANTASTIC FRAGRANCES
